

This is a Robot.

(Some Assembly Required)

Imagine transforming a box of random parts into a working, remote controlled robot... in six weeks! On September 13th, more than 300 students from 32 area high schools will take this challenge. Are you ready for it? Anyone who can handle a screwdriver can build a BEST robot. Creativity and motivation are more important than being a techno-whiz. Over \$46,000 in scholarships and an invitation to the Texas BEST competition await the top teams. To learn more, contact your instructor:

SA BEST • 5601 Bandera Road, PMB 335 • San Antonio, TX 78238
